Profile Summary

B.Tech Computer Engineering student with a strong interest in Full-Stack Development and technology-driven problem solving. Possess working knowledge of Python, Java, C, and SQL, along with foundational web development skills. Quick learner with strong problem-solving, pattern recognition, teamwork, and analytical abilities, eager to contribute to innovative software solutions.

Experience

NeST Digital , MERN Stack Intern	Kerala, India May 2025 – Jun 2025
- Developed and maintained full-stack web application features using the MERN stack. - Integrated REST APIs and managed MongoDB database operations. - Collaborated with team members to implement and optimize application functionality.	

Projects

SHEILD, AI-Powered Personal Safety and Emergency Assistance Platform github.com/Krishnanjaly/SHEILD	2025–2026
- Built an AI-powered mobile safety application with SOS assistance. - Implemented voice and motion-based emergency detection. - Enabled live GPS sharing and emergency notifications. - Tech Stack: React Native, Node.js, Express.js, MySQL, Twilio, Cloudinary.	
Offside Deal, Football Merchandise E-Commerce Platform github.com/Krishnanjaly/Offside-Deal	2024
- Developed an online football merchandise shopping platform. - Implemented product filtering and cart management. - Built responsive interfaces for seamless user experience. - Tech Stack: React.js, Node.js, Express.js, MongoDB, JWT.	
PlateCraft, Full-Stack Recipe Discovery and Exploration Platform github.com/Krishnanjaly/PlateCraft	2024
- Developed a recipe exploration platform with global cuisines. - Implemented authentication and recipe search features. - Designed responsive and user-friendly interfaces. - Tech Stack: React.js, Node.js, Express.js, MongoDB, JWT.	
Water Footprint Calculator, Sustainable Water Usage Assessment System github.com/Krishnanjaly/Water-Footprint-Calculator	2024
- Calculated irrigation water requirements based on crop type and cultivation area. - Recommended optimal water usage to reduce unnecessary water consumption. - Promoted sustainable irrigation and efficient water management. - Tech Stack: HTML, CSS.	

Education

B.Tech St. Joseph's College of Engineering and Technology, Palai

2023 – Present

- Computer Science and Engineering
- CGPA: 8.58

BS Indian Institute of Technology Madras

2024 – 2025

- Foundation in Data Science

Skills

- **Languages:** Python, Java, C, JavaScript, SQL
- **Databases:** MongoDB, MySQL
- **Concepts:** Data Structures & Algorithms, OOP, DBMS, REST APIs
- **Web Technologies:** HTML, CSS, React.js, React Native, Node.js, Express.js
- **Tools:** Git, GitHub, VS Code, Postman, Cloudinary, Twilio

Certifications

- IIT Madras - Foundational Level in Programming and Data Science (Dec 2025)
- NPTEL - Fundamentals of Artificial Intelligence (78%)
- NPTEL - Privacy and Security in Online Social Media (78%)
- NPTEL - Introduction to Industry 4.0 and Industrial Internet of Things (68%)
- NPTEL - Wheeled Mobile Robots (70%)
- NPTEL - Python for Data Science (63%)
- Google Data Analytics Professional Certificate (8 Certifications)

Activities

- Participant - Smart India Hackathon
- Participant - NASA Space Apps Challenge
- Participated in a Women-Only Hackathon focused on innovation and technology solutions
- Attended advanced AI/ML workshop at NIT to enhance technical skills
- Active Volunteer in College Technical Fest and Events

Languages

- English – Fluent
- Malayalam – Native
